## CAPABLE BUILDERS GET CONTRACT ON HIGHWAY TO BENTON

Work Will Start First of March if  
Weather Permits; May Be  
Finished This Year.

### PROMISE TO COMPLETE GRADE AND DRAIN WITHIN 6 MONTHS

Work on the road from Murray to Benton is expected to start about the first of March, if weather conditions permit, according to Judge T. R. Jones, and with experienced contractors building the contracts for both the Calloway and Marshall ends of the line it is entirely possible that the entire road will be completed during the year.

The Calloway section of the highway has been awarded to Fraser & Cooke, of La Center, who have agreed to construct the grade and drain within five months of the time they are given the work order. The Marshall county section was given to Frank Pryor & Co., of Mayfield, who is also an experienced and capable road builder.

The road between Hopkinsville and Bowling Green, on the way to Louisville, is now open and being used. This considerably lessens the distance between Murray and Louisville as drivers have been compelled to go either by Springfield, Tenn., or take the Ohio River route via Paducah, Henderson and Owensboro.

Grade and drain work on the Murray Park road, via Hazel, is also expected to be started in the spring.

## PETE MARBERRY IS VICTIM OF DEATH

W. E. Marberry received a message Tuesday afternoon stating that his brother, Pete Marberry of Victoria, Texas, was critically ill of pneumonia and his recovery doubtful. A message followed Wednesday stating that the brother died during the night.

Pete Marberry is well remembered in Murray, having lived in the county all his life until about 1893 when he moved to Texas. He was a son of Tom Marberry of New Concord, and was engaged for many years in the mercantile business there with his father. His mother, Mrs. Mary Ann Marberry, was a daughter of P. M. Rowlett tobacco manufacturer of New Concord.

His wife, Mrs. Mavis Marberry, three sons, Will Ed, Tom, Roy, and a daughter, Miss Mary Lucy Marberry survive. W. E. Marberry of Murray, and Hattie Marberry of Florida are brothers. A half sister, Miss Jennie Marberry, and her mother, Mrs. Martin E. Marberry, live in Henrietta, Texas. Another half sister, Mrs. Roy Stubblefield, lives in Bloomington, Texas. J. D. Rowlett, an uncle; Mrs. Jennie Kirkland and Miss Renie Rowlett his aunts, live in Murray.

W. E. Marberry who was preparing to go to his brother's bedside when the end came, has postponed going until early spring when he plans to visit in Texas indefinitely.

## LEADING CITIZEN LOST TO CITY AS J. M. SEXTON DIES

Pneumonia Claims Confederate Veteran, Aged 91, Sunday at Home of Daughter.

### MANY JOIN IN MOURNING DEATH OF EXEMPLARY MAN

Death claimed one of Murray's most prominent and highly respected citizens Sunday when J. M. Sexton succumbed at the home of his daughter, Mrs. Victoria Martin, on North Fifth street following a week's illness of pneumonia.

Mr. Sexton, who was 91 years of age, was a veteran of the confederate armies. He resided in Stewart county Tennessee, until about seven years ago when he moved to Murray to make his home near his children. He lived here on South eighth street until last summer when Mrs. Sexton preceded him in death and then made his home with his daughter.

He was a staunch and faithful member of the Methodist church and was an exemplary Christian man with a host of friends and admirers.

Besides his daughter, he is survived by two sons, J. D. and Bert Sexton, well known hardware merchants of Murray, one other daughter, Mrs. E. E. Douglas, of Lynn Grove and seven grandchildren, Miss Ruth, Frances, Jane and Elizabeth and Katie Martin and Charles Sexton and Homer Martin.

He was a member of the Murray Masonic Lodge.

Impressive funeral services were conducted at the Methodist church Monday morning at 10:30 o'clock, at which a large number paid their last tributes of respect, by the Rev. C. E. Norman, Rev. E. B. Motley and Rev. L. L. Jones. Burial was in the city cemetery.

## CHILDREN'S HOME SOCIETY TO ASK FUNDS IN MURRAY

Benevolent Organization Seeks To Discharge Debt of \$105,000 This Year.

### TAKES DESTITUTE TOTS UNTIL HOMES ARE FOUND

An organization is being perfected here this week, with Ed Filbeck as chairman, for a drive in Murray and Calloway county next week for the benefit of the Kentucky Children's Home, at Lyndon, Kentucky. W. H. Collins, financial agent for the home, was in Murray Wednesday assisting in the organization.

The Kentucky Children's Home Society is given a small budget by the state legislature each year but these funds are far from sufficient for its work and money for its highly important work is solicited at all times from the citizens of the state.

A \$550,000 home has been paid for with the exception of \$70,000 and this with an operating debt of \$105,000 which the society is seeking to pay off during this year.

In the fiscal year, ending June 30, 1928, 456 children were placed in desirable homes throughout the state and 307 are in the home now. Mr. Collins stated. Several children were placed in Calloway county last year.

The home takes destitute children not eligible to church and lodge homes. Its work has been considerably enlarged during the past few years and though the home is now crowded it is not refusing to take any eligible children. Mr. Collins said. The only requirements are that the child be physically and mentally sound.

The work is one of the most worthy in the state and Murray citizens are expected to contribute liberally in the campaign next week.

## Tigers Defeat Concord Quintet, 23-16 Tuesday

The high school basketball motored down to Concord Tuesday night and took the strong high school five there in their last by the count of 23 to 16. It was the fourth straight victory for the locals.

### Was There A Flu Epidemic?

The best news we have read recently is that the flu epidemic is about over. This may be true and we hope it is. Still, Surgeon General Cummins of the United States Health Department, gives warning that a second epidemic may follow soon. This was true in 1918, the year of the great epidemic, and in subsequent years.

The present epidemic, though general over the United States, and thousands of people have been despatched sick, the death rate has been small. Pneumonia and other complications have been the cause of most of the deaths.

The United States Health Department, under Surgeon General Cummins, has done the people of this nation a great service. Weeks ago we were warned of the approach of this epidemic. Starting in Los Angeles, Cal., it moved up the Pacific coast and then East over the entire nation. The extent of the epidemic, its eastward movement, the seriousness of it and lack of fatalities were all foretold by Surgeon General Cummins and his staff. This warning gave local health authorities time to prepare for it. This to our thinking was valuable service to the people of the United States.

We say this with a full realization that several prominent medical authorities insist there was no epidemic. One prominent M. D. told us over the radio the other morning that fully

90 per cent of the human ills were imaginary and intimated that if the news papers would keep still there would be no epidemic. This, of course, is a rather serious charge to accuse the news papers of spreading an epidemic. News papers print the news. What happened in our various cities and reports from medical authorities were printed. If these warnings and this news had not been printed, news papers would have been seriously behind the times and very remiss in their duty.

Evidently these well meaning medical gentlemen who object to the news papers saying there was a flu epidemic, never had the flu. We hope they never have it. If ever they do have the real, old, genuine back-breaking, bone aching, belly-gripping, chest-wheezing, coughing, sneezing, freezing and then burning up kind, the kind that leaves you weak and good for nothing for days we are quite of the opinion that they will quite agree with us we had quite an epidemic. Especially when about every one in the house had it at the same time; when nine-tenths of our neighbors had it, schools closed and business at a standstill, this is our conception of an epidemic.

Possibly the best description of an all around case of the flu was given by a lady in Murray who said when she was first taken she was very much afraid, she was going to die, but as she grew worse and felt so terribly bad she got where she was afraid she would not die.

## THE LEDGER & TIMES

### Dexter News

#### CONGRATULATION

In the recent publication of the Ledger & Times, we were overjoyed to see an account of the decision and contract let for the highway thru our town, Dexter.

First we wish to express our appreciation to property owners, for their grants of rightaway, which expresses their faith in good roads. Second, to those who fought the fight—the highest appreciation to those most interested were: W. D. Moore, of Ala., who claims Dexter, his home and who is already to provide time, influence and money to win this project. Again as a town, who is proud of its highway decision we, the ones who fought, and committee wish to publicly express our deepest gratification to the Highway Commissioner for their untiring efforts and great work they accomplished. Hurrah! for Joe Ryan and his fellow commissioners. We are ready and willing to assist in all ways for betterment of the town and county.

The later report of road contract let sounds good—to hear the surveyors pounding for solid earth at the creek for the preparation of bridge work. Hurrah! again for the good road through Dexter.

Flu is receding here—not many new cases if any. Those reported last issue are all improved and some are out about town.

Mrs. Wm. Gream, of Centralia, arrived Friday to be at the bedside of her mother, Mrs. Wm. Egman, who has pneumonia.

Mrs. Lois Ernesberger is confined to her bed with flu—coming from Paducah last week to her parents who were both ill of the flu, they are somewhat improved.

Mr. Arthur Claver and daughter left Monday for Paducah.

Mrs. Jack Ferguson was stricken Friday night with a light stroke of paralysis. She is confined to her bed but so far is clear of the flu.

Mr. and Mrs. Hubert Hayes have moved into the L. B. Coursey residence from north side of town.

Mrs. Paul Darnell, who is on the sick list, is improving this week.

J. C. Claver is confined to his home with the flu.

Prof. Onas Evans, who has been confined at the home of his parents in Murray the past week of flu, has returned to his school duties this week. All were glad to see him recovered and his return to school duties.

At the close of the school, which is at the end of this month, an interesting program will be given if the

### 2 Loads of Leaf Bring \$1020.50 Here Monday

J. G. Garland, a young farmer of Farmington Route 1, delivered two loads of tobacco here Monday which brought him \$1020.50. One of the loads went to E. M. Farmer & Son and the other was purchased by W. S. Swann. All of the tobacco was bought at the barn last fall. The

prices were 20 and 23 cents. Twenty acres of tobacco were produced on Mr. Garland's farm last year and only 2200 of the 8,000 stalks were delivered here Monday. Part of the leaf was of fine snuff quality.

Mrs. Goldie Haneline, of Cincinnati, will leave for her home the first of next week after spending two weeks with her parents, Mr. and Mrs. M. M. Lovier, on Longview.

### Stalks Soon Lose Fertilizer Value

With a ton of tobacco stalks worth probably \$25 as fertilizer, many farmers carefully preserve their stalks indoors or else spread them immediately on the land, before they leach out and lose much of their high fertilizing value.

The Experiment Station of the University of Kentucky, in a recent report, states that a ton of tobacco stalks containing 70 to 80 pounds of nitrogen, worth at present prices of nitrogen about \$20; about the same amount of water-soluble phosphorus.

There is said to be as much nitrogen in a ton of stalks as in 500 pounds of nitrate of soda, in 1,200 pounds of cottonseed meal or in a ton of mixed fertilizer containing 2 percent nitrogen.

A half to two-thirds of the nitrogen and potash may be leached out when the stalks are thrown out of the barn and exposed to the weather. A few weeks exposure in piles may reduce the value of the stalks more than half.

Where it is necessary to remove the stalks from the barn, it is recommended that they be spread thinly on wheat, barley or grass. It is best, however, to keep the stalks in the barn until spring.

### Women's Program At Farm and Home Week

Homemakers will have a program of their own during the annual Farm and Home Convention at Lexington Jan. 20-Feb. 1. Child training, recreation, music and other subjects of interest to women will be considered. Among the speakers will be Dr. Ada Hart Arlitt, professor of child care and training in the University of Cincinnati; Miss Georgine Faulkner, "The Story Lady," of Chicago, and Mrs. Afina Steese Richardson, of "The Woman's Home Companion," New York.

A feature of the woman's programs will be the naming of five master homemakers. Miss Bess M. Kove, of "The Farmer's Wife," magazine, will present medals to the five women at a special luncheon given in their honor on Friday.

Another feature of the homemaker's program will be the awarding of scholarships in a bread making contest, sponsored by the Soft Wheat Miller's Association. Miss See Rice

will represent the association in awarding the scholarships. She also will give a demonstration in bread making.

More than 200 women representing county homemaker's associations over the state will attend the meetings, which will be open to all women. The sessions will be held on the second floor of the livestock pavilion on the Experiment Station farm, beginning at 10 and 1:15 o'clock. When Miss See Rice, of the Soft Wheat Miller's Machine Company, will lead the singing.

Be it resolved that since Rosa Henry has been so suddenly removed from our midst we bow in humble submission to our Father's will and invoke His tender blessings upon the bereaved family. Therefore, be it resolved that the committee from New Concord High School submit the following resolutions:

(I) That the high school has lost an excellent student, who gave his best in whatever undertaking he attempted. In every phase of school life he conducted himself in such a way that he commanded the respect of his teachers and classmates.

(II) That the Freshman class has lost a leader whose place cannot easily be filled and a classmate whose sunny disposition has endeared him to all.

(III) That the members of the faculty lament his untimely death and extend their heart-felt sympathy, and pray that the family may find consolation in the splendid life and character that Rosa lived and exemplified while here on earth. As we cherish his memory we realize the world is better by his having lived. Committee on Resolutions.

Grateful Lady Happy To Urge All To Try New Medicine That Restored Her Health

MRS. J. C. PAULOSKO

Remarkable, but true, it appears that Konjola is at the very apex of its powers when all else had failed. How frequently this is proved, as in the case of Mrs. J. C. Paulosko, R. F. D. No. 2, Painesville, Ohio. Jubilant over the magnificent results she found in this master medicine, she says:

"Konjola is almost magical; I marvel when I reflect on what this splendid medicine did for me. For twelve years indigestion, kidney and liver troubles and constipation made life miserable; for twelve years nothing helped me. I had little faith, but friends insisted that I give Konjola a chance. I consented, and what a wise thing that was. Four bottles of this astounding compound turned the trick. In one month the ills of

twelve years were ended; in one month all my pain and suffering were swept away. Konjola is the champion of all medicines; it must be to take hold of a protracted case like mine and vanquish it in so short a time. It is told that Konjola is the medi-

cine with more than a million friends. Well, Konjola it has won another long friend in me." Konjola is sold in Murray at Dale Stubblefield & Co. drug store, and by all the best druggists in all towns throughout this entire section. (adv.)

## The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

represents 4 years of Development and over a Million miles of Testing

Never has a new motor car come to the public more thoroughly proved in every detail than The Outstanding Chevrolet of Chevrolet History.

Years ago, the Chevrolet Motor Company designed and built its first experimental six-cylinder motor. This far-sighted step was taken because Chevrolet engineers knew that the six-cylinder motor is inherently the most perfectly balanced motor—the ideal power plant to meet the growing public demand for greater reserve power, faster getaway and, above all—smooth, quiet performance.

During the last four years, over a hundred six-cylinder motors—representing every conceivable type—were built by Chevrolet engineers and tested on the General Motors Proving Ground. This constituted

one of the greatest series of tests ever conducted with any automobile. From time to time, the experimental models were torn down for inspection, redesigning and further testing—until the present motor was developed and pronounced correct.

While the new six-cylinder motor was in process of development, other Chevrolet engineers were perfecting other parts of the chassis. And another great automotive organization—the Fisher Body Corporation—was devoting its gigantic resources to the creation of the finest, sturdiest and most beautiful bodies ever offered on a low-priced automobile.

As a result, the Outstanding Chevrolet offers an order of well-balanced excellence that is extraordinary in the low-price field. From every

standpoint—power, speed, smoothness, acceleration and quietness—its performance is truly amazing. Its handling ease and roadability are exceptional. Its economy of operation is so great that it delivers better than 20 miles to the gallon of gasoline. And its outstanding beauty, smartness and luxury are exciting widespread admiration.

You owe it to yourself to see and inspect this remarkable car. Come in today!

### Teachers Take Pair From Bethel College In Opening Drive for Conference Net Title

Unjinxing their jinx, the Thoroughbreds clinched the opening conference game by defeating Bethel College, Russellville, Ky., 35-32, by a well-placed crisp shot in the last minute of play in the Murray auditorium Friday night, January 11.

In a rough and tumble game, which started slowly with Bethel leading, the Murray Teachers moved out their opponents to gain their first victory of the 1929-30 season. Again Captain James Miller was high-point man with 13 markers to his credit. He made nine of Murray's 17 points in the last half.

Neither team showed much class in passing or floorwork. Individual playing and long shots featured the game on both sides, with an occasional ringer to vary the monotony of a poorly-called game.

The super-guarding of Houston and May forced the visitors to count most of their points via the long shot route. T. R. Graham, entering the fracas in

the last quarter, picked an opportune time, when the score stood 33-32, to place a crisp before the gong called off the hostilities.

Lineup and summary:  
Murray (35) Pos. Bethel (32)  
Jim Miller (13) F. Goodson (8)  
Jesse Haynes (4) C. Johnson (11)  
John Miller (5) G. Gwaltney (2)

Substitutions: Murray—Brodie (2), T. R. Graham (2).  
For Bethel—Miller, Coots, Taylor.

The Murray State Teachers Thoroughbreds won a decisive victory in their second conference win of the season from Bethel College here Saturday night by a score of 44-26. The Teachers, playing an entirely different game from the one they played the night before, completely out-passed, out-played, and out-classed their opponents.

Cochran Cutchin in the second half started the best offensive combination that he has made this season. The Miller brothers, John and Jim, forward and center, and Smith at the other forward position made a strong scoring machine. These, led by Captain Miller, scored 26 points

to their opponents "10 in the last half. Jim Miller and T. R. Graham, who played an outstanding quality of basketball, scoring 10 of Murray's points the first half, but who was removed soon after the second half began, tied for high point honors with 14 points each. Ward, floor guard for Bethel, led his team with 10 points at scoring and played well at the guard position. In the last four minutes, Jim Miller has scored 54 points for Murray.

Smith's floor game ranked as the fastest and best floor work ever exhibited in the history of the college. Smith's floor game ranked as the fastest and best floor work ever exhibited in the history of the college.

This was the third game out of four that the Cutchinmen have won from Bethel in the last two years, and also the second win toward the Mississippi-Valley Conference championship. The Murray aggregation will leave Thursday for Martin, Tenn. where they will play U. T. Juniors, and from there to Memphis, where they meet Tennessee Teachers on Friday night. They go to play Delta State Teachers at Cleveland, Miss., Saturday night for their first road trip of the year.

### Thoroughbred Quintet on Week End Trip South

Cutchin's Thoroughbred basketballers, who have started their bid for the Mississippi Valley conference title drive with two victories over Bethel College, left Murray Thursday morning for a three-day trip south.

They play the U. T. Juniors, at Martin, Thursday night and Friday night clash with West Tennessee at Memphis. Saturday night they will play at Cleveland, Mississippi, and return to Murray Sunday. They will make the trip by taxi.

### Calloway Woman Best in Buttonhole Making

Miss Sadie Wilgus, home demonstration agent for Calloway county, has received a letter from Isabelle M. Story, clothing specialist of the Kentucky College of Agriculture, Lexington, that Mrs. Taylor, of the Almo community, did the best work in a statewide contest conducted by Miss Story.

The contest was held in all counties of Kentucky and, according to Miss Story, the work of Mrs. Taylor was decidedly the best. Though the honor carries no material prize, Mrs. Taylor is to be heartily congratulated.

BROACH CLUB MEMBER TO ATTEND FARM HOME WEEK

The Broach community club will meet at a date, soon to be announced, to select one of its members to attend the annual Farm and Home Week at Lexington. A meeting was held Monday at the home of Mrs. Les Armstrong to select a delegate but the vote was a tie between Mrs. Les Armstrong and Mrs. Nell Armstrong and on account of illness and absence of many members, it was decided to hold a later meeting to select the delegate.

The Pottersville club held an all day meeting Wednesday with Mrs. J. D. Roberts.

WHAT IS A BARGAIN?

In this community are hundreds of individuals and families on the watch for an advertisement which will offer them what they want at an advantageous price.

Call them bargain-hunters, if you like, but thrifty shoppers would be the better designation. Thrift is a commendable trait and merchants should cater to it.

One family wants a new carpet—the need is not urgent. Another family is looking forward to buying dining room furniture—it may not be for a twelve month.

One man is thinking of buying himself a watch. One woman a shopping bag; another an umbrella.

All can be made to buy earlier—by advertising. Advertising can make the desire so keen that the bargain is forgotten in the fever for immediate possession.

A Note to Merchants

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you—at a time of your naming.

## MOVIES

New York's underworld, that region of shadowed sin whose nightly exploits in crime outstrip the inventions of fiction, is the background of Dolores Costello's new starring vehicle, "Tenderloin," which comes to the Capitol Theatre Wednesday and Thursday.

Crook dramas are the latest rage of popular fancy, and as background for the emotional talents of the gifted Dolores Costello, a gripping, swift-moving drama is promised.

"Tenderloin" from an original story by Melville Crossman, E. T. Lowe Jr., doing the scenario.

A wild ride on a runaway Pullman is a thrill that comes once in a lifetime.

It falls to the lot of Antonio Moreno and Helen Costello in "The Midnight Taxi," the Warner Bros. picture attractions at the Capitol Theatre Saturday.

The two are attempting to elude a desperate gang of crooks.

William Russell, Myrna Loy, Bobbie Agnew, Tom Dugan, Pat Harrigan and Jack Santoro are cast in "The Midnight Taxi," John Adolphi directed. Story by Gregory Rogers. Scenario by Harvey Gates.

Alma Rubens, famous for her "women of the world" roles, has an important part in John Gilbert's new starring picture, "The Masks of the Devil," which comes Monday and Tuesday to the Capitol Theatre.

Miss Rubens was born in San Francisco and started her screen career as leading lady for Douglas Fairbanks in "The Half-Breed." She will be remembered for her roles in "Cytherea," "Humoresque" and "Enemies of Women."

Eva Von Berne, who plays the leading feminine role in John Gilbert's "The Masks of the Devil," which comes Monday and Tuesday to the Capitol Theatre, is making her initial bow on the screen in this production.

Miss Von Berne was born in Sarajavo, Austria, and raised in

Vienna. She was discovered by Norma Shearer while on a recent European trip.

A priceless Stradivarius violin, one of the prized heirlooms in the family of Jean Hersholt, was used by the actor during the filming of "Jazz Mad" Universal picture opening at the Capitol Theatre Wednesday and Thursday.

The role of Franz Hosenmann, a poverty stricken German composer. He felt that he could do the part with more sincerity if he handled and played his own instrument instead of one from the property room. Although the actor is not an accomplished musician, he plays with more than average skill and frequently practices on the expensive Strad. So Hersholt brought the prized possession to the studio for use during the appropriate sequences.

A step saved and a smile earned. Isn't it worth while? In doing the routine duties, the saving of a few steps and a few minutes for other worth while purposes may make the difference between a contented farm family and a discontented one. The people of today find that they have been doing a great deal of unnecessary work and they are now attempting to simplify manual labor and leave their energies free for other activities.

For years men have had many devices and much machinery to aid them in their work, but comparatively little attention has been given to the needs of women in this line and to the devices which would help them in caring for the house and family. The old saying, "A man's work is from sun to sun, but a woman's work is never done," has indeed been true. There are now many household labor saving devices, complex and simple which enable the farm wife to save her time and strength, to take better care of her family and consequently to have a more comfortable and a more pleasant home. Isn't it true that "the cook must keep sweet tho the milk doth sour, or none will enjoy the dinner hour"? The cook may be kept sweet by providing her with a cheerful, convenient, healthful kitchen in which she spends so many precious hours.

There are five ways that a woman can save time and, therefore, energy in her housework:

1. By labor-saving furnishings and equipment.
2. By step-saving arrangement of equipment.
3. By improved methods of work.
4. By efficient planning of work.
5. By simple living.

The following quotation by Hubert Work is worthy of careful thought: "The mother is the essential of any home. It should be in her conservation and inspiration on the farm that clubs, schools and government agen-

cies should address themselves. She is the formation of all generations of men. I would make a plea for the farm family unit; for the six million of women on farms:

- That their load be lightened;
- That their hours be shortened;
- Recreation enjoyed, and their minds rested;

That they be helped to take their places as character builders, to build the home life around them.

Realizing the need for the kitchen which is carefully planned, well equipped, having with appliances, requiring the minimum amount of effort to obtain maximum amount of work, the Homemakers' Club in McCracken, Calloway, Ballard, Henderson and McLean Counties are planning to begin work on Wife Saving Kitchens in February, having faith that the good work will continue until all the drab, dingy, wife killing kitchens have become a thing of the past.

Prentice Bailey, who was named as one of the ten master farmers of the state, died recently at his home in Logan county.

## M. B. TOWERY DIES NEAR ALMO FRIDAY

Widow, Five Sons, Four Sisters Two Brothers Survive; Was Victim of Dropsy.

M. B. Towery, 62 years of age, a well known citizen of the northeast part of the county, passed away Friday at his home four miles east of Almo.

He is survived by his widow, five sons, H. R., of Akron, Ohio; H. T., of Paducah, and J. T., A. M. and L. A. Towery, all of Almo; four sisters, Mrs. Harve Drennon, Mrs. J. A. Duncan and Mrs. John Hill, all of Almo and Mrs. Sophia Futrell, of Paducah; and two brothers, Tom, of Mallen, Missouri, and Bishop Towery, of this county.

Funeral services were conducted from the home Saturday noon with Milburn Washburn officiating. Burial was in the Jeffrey cemetery.

## Tiger Basketeers Win from Fulton and Cuba

Coach Ted Sanford's rambling Tiger basketeers raked in victories both Thursday and Friday nights, easily defeating the Fulton Bulldogs in Thursday's game but being hard pressed to defeat the speedy Cuba team Friday night in the college gymnasium.

Fulton fell an easy victim to the smooth passing attack of the Tigers and scored on the short end of a 9 to 12 score. The Tigers were also especially adept on their bids for the basket. T. Doran led the counting with 25 points and his brother, C., rang up 20. Chambers scored 15 of his team's points.

The battle with Cuba was a nip-

and-tuck defensive affair with both teams sparring for a break after the visitors overcame a six-point lead by Murray.

Both fives had difficulty in finding the basket and the guarding of both teams was exceptionally close. Cuba rallied to tie the score at 12-12 just before the end but Murray's center

sank a field goal just before the whistle to capture the tilt, 14 to 12. The Tigers will play Kirksey at Kirksey Friday night.

With hay and grain high in price, many Knott county farmers are planning to grow soybeans and other stock feed.

## FRANKLIN DELANO ROOSEVELT

The new Governor of New York, the Empire State, is a small town product. Franklin D. Roosevelt is known from one end of the country to the other as a distinguished lawyer and an exceptionally frank, honest politician. Handicapped by physical disabilities arising from an illness of infantile paralysis, he has nevertheless achieved the high position he now holds.

So much in demand was he, because of his sterling qualities, that

## SIGNS

Of All Kinds

no excuse was taken when he was called upon to run for Governor. Again and again Roosevelt has been brought to the fore while seeking re-election and has yielded to the wishes of New Yorkers because of an unselfish desire to be of service.

Born at Hyde Park, N. J., in 1882, he was admitted to the bar in 1907. He was a member of the New York Senate from 1910 to 1913, when he became assistant Secretary of the Navy, holding this post until 1920. That year he was the Democratic nominee for Vice-President.

He has been active in many public enterprises, in which he gave such an example of devotion, efficiency and capability that he was literally "drafted" as a candidate for Governor. His career should be an inspiration to all small town youths, and to those who are in any way physically handicapped.

TO LIVE LONG, EAT LITTLE.  
A SMALL PIECE OF LAND.  
NO PEACE PRIZE.

## TWO COOLIDGE VIRTUES.

Reasonable expectations of life are now limited to fifty-five years for the average. Formerly, when open sewers ran through streets, with graveyards on hill-sides draining into wells below, life averaged less than twenty years. Science says we already have sufficient medical knowledge to make life's expectation twelve years longer, but we don't use what we know.

The big problem is extending life for men and women past fifty. Barring cancer and other troubles, not understood, prolonging life is not complicated. Eat, sleep, exercise and breathe properly and living to ninety will not be difficult. Eating is especially important. We are what we eat.

Luigi Cornaro proved it when, at forty years of age, doctors told him his chances were hopeless. He cut his diet to twelve ounces of solid food, with fifteen ounces of light wine per day, wrote an interesting book when past ninety, lived past one hundred and wrote to the Archbishop of Venice: "I mount my horse without difficulty and had to live past ninety to realize that the world is beautiful." He made his wife live as he lived, and she passed one hundred. Francis Bacon supplies interesting details of Cornaro's life, as do other ancient writers.

Real estate dealers, old and young, paste in your hats.

One hundred years ago a small piece of land, part of the old Botanical Gardens in New York, was bought for \$4,807.36. The land, three blocks, is on Fifth avenue.

John D. Rockefeller, Jr. has just secured that piece of property for \$100,000,000, an increase to make a good single taxer shudder.

Mr. Rockefeller will use part of the property for a new Opera House, to be built in a fashion to allow students and others that have musical talent, but no diamond necklaces, to see and hear.

The money goes to Columbia College, which now owns the land. That probably reconciles Mr. Rockefeller to so large an investment.

He inherits from his father, who gave tens of millions to the University of Chicago, an interest in educational enterprises.

An association organized in honor of Woodrow Wilson held its annual dinner, but didn't give a peace prize to anybody. Secretary Kellogg certainly worked hard enough to deserve a prize.

President Coolidge deserves two prizes, for continuing to mind his own business, and for minding the business of the United States, leaving Europeans to mind theirs.

Perhaps the Woodrow Wilson committee don't like to honor any Republican, like the colored lady whose apartment was invaded by a buglar, while a Bryan parade was passing.

The one remaining awake and talking, for the greatest number of hours, received \$2,000.

A civilization that does not allow one man to torture another should not allow human beings to torture themselves for profit.

COWBOY

By "Uncle Jerry."

A dairyman is one of whose cows keep him; a cowkeeper is one who is obliged to keep his cows.

The milkmaid under the growing holler will find when she comes fresh that she will under feed him. Bologna bills are cheap, but proven sires are valuable. It pays to keep the bull long enough to find out the production of his daughters.

The man who hasn't time to weigh the milk of each cow, at least once a week, shouldn't smoke. It takes more time to light his pipe than it does to weigh a cow's milk.

He who fails to grow sufficient feed in the summer for next winter's needs, will find his profits cut in two in the spring.

Two milk shippers at a clean milk campaign were heard as follows:

First shipper: "Bill, do you drink milk at your house?"

Second shipper: "No, I know too darn well how it's produced."

After the campaign, Bill kicked because he had to clean up. Funny how some fellows expect to sell what they themselves won't use.

PAINFUL  
INDIGESTION

"I suffered a good while before I found something that would help me," writes Mr. E. W. Berry, of Neosho, Mo. "My trouble was indigestion, pains in my chest and a tight, bloated feeling that would make me feel smothered."

"Speaking of this to a friend of mine, he told me that Black-Draught was good for this trouble. I went over and bought a package. It certainly did help me, so I continued to use it."

"I am in the transfer business, and sometimes when I would be hungry and ready to eat, I would have a call and would have to eat later. Then I would eat too much or too hurriedly. This would cause indigestion. After I started using Black-Draught, I found it did me a world of good. It is splendid for biliousness and stomach troubles."

Mason.

Mrs. Tom Morris of Murray is a  
patient at the hospital. Mr. Morris  
was also a patient at the hospital for  
several days. Both Mr. and Mrs.  
Morris are reported improving.

Baby Gerald Miller, 9 months old  
son of Mr. Orlando Miller of Lynn  
Grove, who was quite sick with pneu-  
monia, at the hospital is reported im-  
proving.

A number of the nurses at the  
hospital who were sick with the flu  
are back on duty again and the hos-  
pital staff reports their work about  
normal again.

The following have been admitted

RECOMMENDED  
FLU AND COLD  
REMEDIES

## LEADING DOCTORS SAY—

"Don't fear flu, fight it." We have all the highly  
endorsed remedies that are good for flu and pneu-  
monia and common colds. Come in and let us stock  
your medicine chest.

TAKE A GOOD, HEALTH-BUILDING TONIC  
AFTER AN ATTACK OF FLU

It's the relapse in flu that's most dangerous. To  
avoid it we recommend that you take a good blood  
and iron tonic to build up your system. We handle  
only pure and beneficial tonics.
